

We've had some pretty good HOPE Vans over the summer. Even though Bar 11 and the Wheatsheaves are no longer operating, it has been apparent that God has had specific reasons for having us there every night that we are out — sometimes to meet real physical needs, sometimes to help with emotional or spiritual needs, but most of all just to be available to the people who come to visit.

September brings us some new beginnings — a new school year for many, a new Alpha Course starting later in the month, and some new exciting adventures for quite a few of our HOPE Frome leaders and long standing team members, which brings me to my first point of business. HOPE Frome has been fortunate over the past 7-8 years to have strong leadership and direction from our Trustees and Coordinators. However, many of our leaders are moving on to new opportunities. So what does this mean for HOPE Frome? In short, instead of having our own leadership and meetings, we'll now share with Frome Area Christians Together (FACT).
